

# PMP® EXAM PREPARATION – BRIDGING COURSE

The Project Management Institute has released a new version of the PMBOK – 5th Edition. The PMP exam is now based on this edition as of July 31st 2013. If you attended a PMP exam preparation course based on an earlier PMBOK edition and did not sit the exam before the cut-off date, this bridging course is for you.

**DURATION**  
2 days  
**PDU's**  
14

## Course Overview

Velopi's PMP® exam preparation course supports you from the PMP® application process right through to success at the PMP® certification exam. This course explores the new material in PMBOK 5th Edition and revises the core material for the PMP exam. Using sample exams covering the core exam material you will be exposed to questions having the same format as those in the actual exam. You will get post-course support from the PMP® certified tutor and have unlimited access to our Exam Simulator which provides full trial exams to ensure you are well prepared to pass the PMP® exam.

## Who is this course suitable for?

This course is specifically designed for previous attendees of PMP exam preparation training who for work or personal reasons did not sit the PMP exam. It is also suitable for those who did not pass the PMP exam on the previous attempt. It is suitable for Project Managers and others preparing to take the PMP® exam and seeking expert guidance on exam strategy, hot topics, sample exam questions and after-course support to ensure they obtain the PMP® certification

## Learning Outcomes

- Identify the new material in PMBOK 5th edition
- Revise all core PMP® exam content and hot topics
- Identify and recognize the various types of PMP® exam questions
- Complete sample exams using our PMP exam simulator
- Assemble an exam checklist allowing easy recall of mathematical formulas that appear on the exam
- Compile an exam strategy that will be used in the actual exam
- Become familiar with the exam policies and procedures
